

# Mental Health First Aid for Public Safety Professionals

You are more likely to encounter someone experiencing an emotional or mental crisis than someone having a heart attack. The Mental Health First Aid course teaches a 5-step action plan to offer initial help to people with the signs and symptoms of a mental illness or crisis, then connect them with the appropriate care. Mental Health First Aid is for anyone. This course will focus upon Public Safety for Law Enforcement, Corrections, Safety Officers, Security, Health Professionals, and others.
